### ❑ Simple, Speedy & Compact

ScanSnap digitizes large volumes of paper-based data for easy management purposes

#### ○ Digitizes large volumes of office documents

The S1500 enables users to easily reduce paper storage space, locate important documents and create data that can be used for multiple applications by storing scanned data in their computer.

→ ScanSnap digitizes large volumes of paper based data for purpose of easy management

#### ○ Easily digitize paper based data with the touch of one button

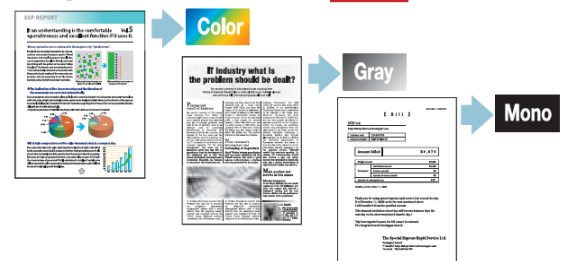

The S1500 facilitates simple PDF generation with the following one touch activated automatic settings and automatic image correction functions:

- Blank page detection
- Auto De-Skew and Auto Orientation
- Automatic Resolution Function
- Intelligent Auto Color Detection
- Auto Size Detection

#### ■ Blank page detection

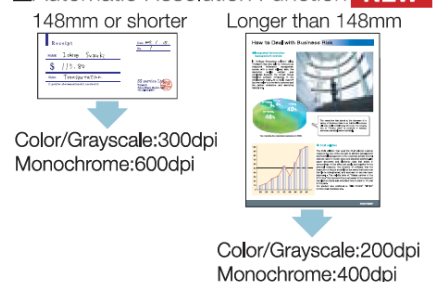

#### ■ Intelligent Auto Color Detection **NEW**

#### ■ Auto deskew and auto orientation

#### ■ Auto-size detection

## Features

**ScanSnap**  
Color Image Scanner  
**S1500**

- **Speedy**

Just place a document in the scanner's paper chute, press the "Scan" button and the S1500 starts scanning right away. Furthermore, the S1500 is able to consecutively scan up to 50 two sided sheets of paper at a speedy 20 pages per minute.

- **Smaller than an A4 notebook computer**

The S1500 is designed to be compact enough to be used just about anywhere.

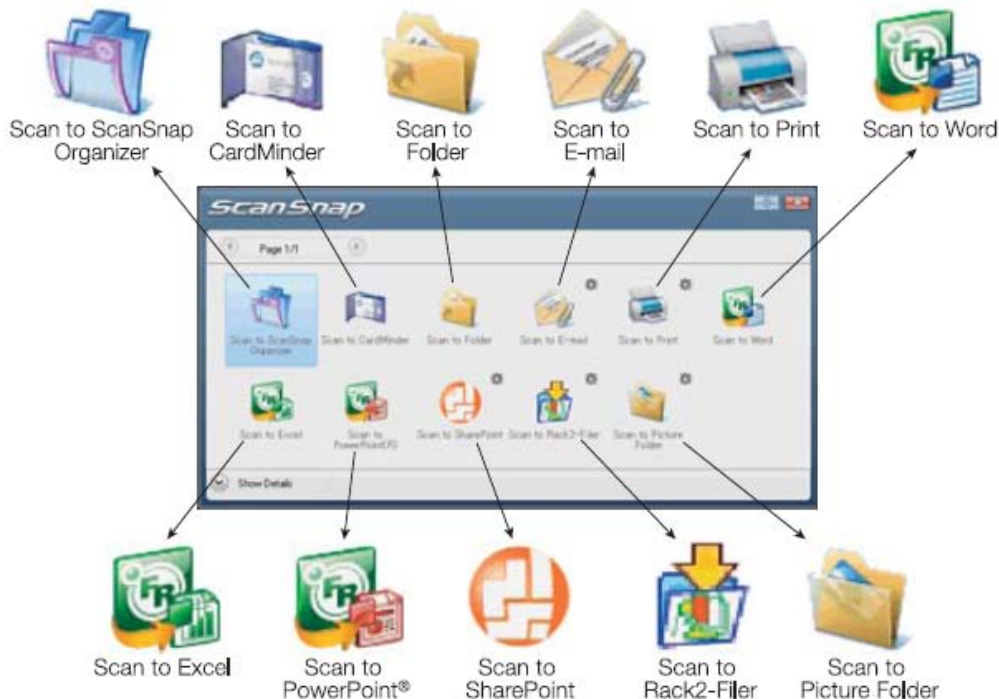

- **Scans everything from business cards to A3 sized documents**

- **ScanSnap Carrier Sheets**

Use of carrier sheets enables S1500 users to digitize larger documents (A3/B4), as well as magazine and newspaper clippings and photographs. Such document containing carrier sheets can be scanned successively or mixed in with regular paper document batches.

- **Ultrasonic multi-feed detection**

S1500 scanners are armed with ultrasonic multi-feed detection sensors to ensure that documents are scanned as intended and data is not lost.

- **S1500's "Quick Menu" facilitates speedy flexible use**

Users just choose what they want to do from the Quick Menu, which appears after a document has been scanned. S1500's Quick Menu is perfect for everyone from novice to pro.

## Features

**ScanSnap**  
Color Image Scanner  
**S1500**

### Efficiently manages digitized data

- S1500 users can easily locate specific ScanSnap generated PDF and JPEG files by viewing displayed thumbnail images.
- Keyword searches can be performed on S1500 generated PDF file text.
- The S1500 creates searchable PDF files by performing OCR functions when the linked computer's CPU is not in use.
- Intelligent Cropping

This feature enables users to easily “cut out” digitized copies of newspaper and magazine articles that they have outlined on the original paper document with a highlighter pen.

### ○ Intelligent Indexing

This feature extracts text from sections of scanned images that have been highlighted. This indexed information can then be attached to PDF files.

### Generates Microsoft Word, Excel and PowerPoint files

- Editable documents can be created by scanning directly to Microsoft Word, Excel and PowerPoint files.

### Generates PDF files that can be edited

- Comes bundled with Adobe Acrobat 9.0 Standard, which enables users to move beyond merely “seeing” and “printing” generated data, to editing generated PDF files however they like.
- Generates password and digital ID attached PDF files that are ideal for safeguarding personal information and other confidential information that needs to be protected.

### Efficiently organizes business card information

- Scans large volumes of business cards into digital business card holders
- Enables users to enter scanned business card data into Excel, Outlook and other databases for future reference.

## Features

**ScanSnap**  
Color Image Scanner  
**S1500**

- ❑ **PREVIEW** – Available April / May 2009: ScanSnap S1500 DELUXE version
  - Includes Rack2-Filer V 5.0
  - Supports uniform management of S1500 generated images as well as other digitized data
  - Enables operators to directly save S1500 generated images into Rack2-Filer
  - Enables users to save digital data in realistic looking book cases and files in the same way they would with paper-based information.
  - Loaded with many editing features and a function that enables users to “flip” through Rack2-Filer files in the same way they would flip through regular files
